

Sending samples to QM Diagnostics by DHL

Use account QM Diagnostics - DHL for sending (biological) samples to QM Diagnostics

When you send samples to QM Diagnostics, we would like to receive your e-mail (qmdiagnosics@qmdiagnosics.org) with the following information:

- The pick-up address
- Name and telephone number contact person
- Preferable collection date

After receiving this information, we will send you a transport label per e-mail. If you send us your e-mail one working day in advance (before 12.00 AM), we can arrange the pick-up for the (working) day after.

Important information with regard to the packaging:

- Biological material must be send in a hard cover packaging (our vivum sampling kit box is a good example)
- Use the smallest box possible, to avoid being charged for a volume weight by DHL
- Be sure the samples are steady in the box (for example by using tape)
- The UN3373 sticker / mark needs the be used in case of sending biological material. Please make sure there is no tape, label, writing or anything else on the UN3373 mark!
